The Global Water Partnership (GWP) is a global action network with over 3,000 Partner organisations in 183 countries. The network has 86 Country Water Partnerships and 13 Regional Water Partnerships. Global Water Partnership Southeast Asia (GWP-SEA) is one of 13 Regional Water Partnerships and the oldest network of GWP. GWP-SEA has strong regional networks and partners in all sectors as well as Country Water Partnerships (CWP's).

Today there are CWP's in all 8 countries in the region, namely Lao PDR, Cambodia, Myanmar, Thailand, Viet Nam, Indonesia, Philippines and Malaysia. These CWP's have growing number of GWP partners who represent a wide diversity of sectors e.g. water management, agriculture, education, environment, professional organizations, development banks, rural & community development organizations, government institutions, NGOs, INGOs and so forth.

GWP-SEA secretariat is based in Jakarta, Indonesia, c/o Ministry of Public Works & Housing of the Republic of Indonesia. On legal basis, GWP-SEA is hosted by PT. Binatama Wirawreda Konsultan (BWK).

Cross-Gen River Resilience

Indonesia, Philippines | Global Water Partnership Southeast Asia | 2022 - 2025

Preparation

Everyone has a stake in water security, but not everyone has a say in addressing water security problems. While not everyone is not interested to be involved, for those who are willing should be provided a space to express and be part of the solutions. Some problems spread across generations wait...

Water Stewardship Brantas River

Indonesia | Yayasan Aliansi Wali Sumber Daya Air Indonesia (AWS Indonesia) | 2019 - 2019

Completed

The Brantas River basin is located within the province of East Java in Indonesia. It has an area of approximately 11,800 square kilometres and makes up 25 percent of East Java's land area. The basin's population amounts to nearly 15 million. There are about 1,800 registered industries in Brantas, mo...

A Water Coalition to Drive Impacts at Watershed Level For Resilient Businesses, People and Environment in West-Java, Indonesia

Indonesia | Yayasan Aliansi Wali Sumber Daya Air Indonesia (AWS Indonesia) | 2020 - 2021

Completed

Indonesia, although being a water rich country, is seeing increasing water stress. Rapid economic development, population growth and the impacts of climate change have put water resources under immense pressure, resulting in water stress and increasing competition over water. The 2019-2024

Description	<p>The Brantas River basin is located within the province of East Java in Indonesia. It has an area of approximately 11,800 square kilometres and makes up 25 percent of East Java's land area. The basin's population amounts to nearly 15 million. There are about 1,800 registered industries in Brantas, mostly located in the Greater Surabaya Area and Surabaya city. These businesses face increasingly growing water-related risks due to overallocation of water, heavy pollution of surface and groundwater, lacking law enforcement measures and reputational risks.</p>
