CERTIFICATE

Climate Neutral Group B.V. has retired for

GWP

327 ton of CO₂ equivalents in the year 2019

With:

VCS REDD+ Forestry credits

Compensation takes place through the specially selected sustainable energy projects of Climate Neutral Group. With these projects, CO₂ emissions are reduced elsewhere.

We always select our projects for the contribution they make to the development of the local population and region. Developments such as: employment, knowledge transfer, health improvement, stimulation of the own economy and local environmental improvements.

A handwritten signature in black ink, appearing to read 'René Toet'.
