

GWP CACENA in October 2006

Three joint National Workshops with the UCC-Water (UNEP) Project involvement in the form of the 2nd round tables to support for achieving the IWRM 2005 targets were conducted in Kyrgyzstan, Tajikistan and Uzbekistan. The main topic was to find inter-sector agreement on the National IWRM Road Map. The agreed National Road maps will be submitted to the final regional seminar with involvement of the donors, which will be held in November in Tashkent, Uzbekistan.

On 25-27 October in Armenia it was held the National Conference on “Integrated Water Resources Management”, financed by the GWP CACENA and supported by the Standing Commission of National Assembly on Social, Health Care and Nature Protection Issues, Ministry of Nature Protection, and State Committee on Water Systems of the Ministry of Territorial Administration. More than 60 participants representing the key stakeholders have discussed the priority issues of IWRM implementation in Armenia. As a result a set of recommendations were suggested to the above-mentioned National Authorities for implementation.
