GWP Network Meeting 2018 Travelling the World

11-12 September 2018

More information to follow

We would very much like to invite you as a valued Partner in the Global Water Partnership to our annual Network Meeting - for the first time in a **'Follow-the-Sun'** format.

The meeting will give you an opportunity to engage directly with other GWP Partners and with your GWP regional and global peers. You will be able to contribute to the new GWP strategy that is being developed, as well as other agenda items for which we need your input. We will let you know about these items soon.

What: The 'Follow the Sun' format allows GWP to consult with Partners in each region over a 24-hour period. You can be part of a 2-hour session in your region (in your language and time zone), and then hand over your region's input to another region. The Network Meeting culminates in a summary and forward-looking global session at the end (recorded for those who cannot participate).

Dates: **11-12 September** (specific times for each GWP regional session and global session tbd)

Who: GWP Partners

How to connect: There will be different options to join the Network Meeting, either by face-to-face sessions in selected countries, or by joining online (link to be announced later). Either way, Partners will be able to connect and contribute to the GWP Network!
