

# Stakeholder Mapping

Drin Basin Multi-Stakeholders Conference  
11.-12. December 2013  
Tirana – Albania

Cornelius Kienemund

# Why this Presentation?

The purpose of this presentation is to ...

- ... Demonstrate the *complexity* of the current stakeholder landscape.
- ... Review our *position* in the international knowledge management.
- ... Initiate answers to the following *questions*:

- Do we know all the key stakeholders – aside from the widely known players?
- How can we assure to
  - sustain a level of sufficient knowledge about relevant activities and projects in the region?
  - avoid duplications?

# World Bank: Country Partnership Strategies

The WB's Country Partnership Strategy for 2011-2014 aims to advance the implementation of the National Strategy for Development and Integration through three strategic pillars:

- Supporting economic recovery and growth in a difficult external environment
- Broadening and sustaining Albania's social gains
- Reducing vulnerability to climate change, particularly through improved water resource management

The Country Partnership Strategy 2011-2014 is designed to integrate the EU accession goals into all development interventions. This strategy is based on the following three pillars:

- Faster growth by improving competitiveness.
- More inclusive growth by strengthening employability and social protection.
- Greener growth through more sustainable resource use.

The current Country Partnership Strategy is client-driven, and reflects Montenegro's status as an upper-middle-income client with well-defined development priorities. This CPS focuses on two strategic priorities:

- strengthening institutions and competitiveness in line with EU accession requirements
- improving environmental management, including reducing the costs of environmental problems

# World Bank: Country Partnership Strategies

 The first *Country Partnership Strategy* calls for a highly-selective lending program during 2012–15. It focuses on two strategic areas:

- accelerating broad-based economic growth and employment generation;
- improving environmental management.

- Currently implemented national Projects, according to WorldBank:

Country	World Bank Projects	Water or Agriculture, fishing and forestry Sector	Total Project Costs US\$ (Total for WB is 870 Mil.)
AL	19	4	304 Mil.
RKS	6	-	70 Mil.
MK	11	3	398 Mil.
MNE	10	4	97 Mil.

## Institutions and organizations active at the Southeastern Europe level to possibly coordinate with ...

1. World Bank: Danube Region Water and Waste Water Sector Capacity Building Program
2. SEE TCP – South East Europe Transnational Cooperation Program
  - Project: Sustainable Integrated Management of International Corridors in SEE Countries
3. The GEF MedPartnership
4. DMCSEE – Drought Management Centre for South East Europe
5. SWG RRD – Standing Working Group of South East Europe Regional Rural Development
6. RCC – Regional Cooperation Council

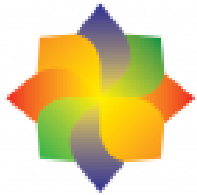

# *Danube Region Water and Waste Water Sector Capacity Building Program*

- The Program develops activities for both *policy support* and *capacity development* in the water supply and sanitation sector at two levels:
  1. At the Danube region's level
  2. At the national level
- **Participating countries:** Albania, Kosovo, FYR Macedonia and Montenegro among others
- **Timeframe:** June 2012 – October 2015
- **Project Costs:** US\$ 6 Mil.

# South East Europe – Transnational Cooperation Program

**SOUTH EAST  
EUROPE**

*“The South East Europe Transnational Cooperation Program aims to develop partnerships in order to improve the territorial, economic and social integration process and to contribute to cohesion, stability and competitiveness of the region.”*

- The project budgets are composed of contributions by the ERDF, IPA and ENPI
- SEE TCP seeks to contribute to the protection and improvement of the environment – among other goals
- In the field of *Climate Change Adaptation, Hazard Management and Risk Prevention* as well as *Nature Protection*, the TCP is currently realizing **12 projects in the SEE region**

# Sustainable Integrated Management of International Corridors in SEE Countries

## SEE River

- **Main objective:** *“To empower the multi-sectoral stakeholders sharing the territory of an international river corridor to gain knowledge on river corridor management, exceeding sectoral, local and national interests in order to ensure good water status and flood protection, preserve nature, biodiversity and ecosystems, and to enable development at the same time.”*
- **SEE River** is currently implemented by 26 institutions and international organizations involved in managing river corridors from 12 countries in SEE.
- **Timeframe:** 10/2012 – 09/2014
- **Project Budget:** EUR 2.1 Mil. (financed via the TCP SEE)

# MedPartnership

Strategic Partnership for the Mediterranean Sea Large Marine Ecosystem

Together for the Mediterranean Sea

## MedPartnership

- The *Strategic Partnership for the Mediterranean Sea Large Marine Ecosystem* is a collective effort of leading organizations and countries sharing the Mediterranean Sea towards the protection of the marine and coastal environment.
- The MedPartnership works through two lines of actions:
  - Regional Project: technical and policy support led by UNEP-MAP
  - Investment Fund: project financing led by the World Bank
- The Regional Project
  - Component 1: Integrated Coastal Zone Management and Integrated Water Resources Management
  - Component 2: Pollution reduction
  - Component 3: Conservation of biological diversity
  - Component 4: Replication and Communication Strategies

# Drought Management Centre for South East Europe

**DMCSEE**  
*Drought Management Centre  
for Southeastern Europe*

*“The mission of the DMC-SEE is to coordinate and facilitate the development, assessment, and application of drought risk management tools and policies in South-Eastern Europe with the goal of improving drought preparedness and reducing drought impacts.”*

- Founding Agencies:
  - WMO
  - UNCCD
- The *DMC-SEE* kick-off Project was implemented via the Transnational Cooperation Program
  - Timeframe: April 2009 – to March 2012
  - Project Budget: 2.2 Mil.
  - This project was co-funded by the European Regional Development Fund

# South East Europe Regional Rural Development Standing Working Group

*“... is an international intergovernmental organization, consisting of governmental institutions responsible for rural development in the respective countries of South Eastern Europe. “*

- The SWG RRD is working to empower sustainable principles on *agriculture and rural development* through networking and permanent cooperation between all stakeholders in the SEE region.
- Recent Project: SWG European Commission Project Preparation Facility: “Preparation of a Proposal for an Area Based Development in the Western Balkans”

# Regional Cooperation Council

is the successor of

*“The Regional Cooperation Council is a regional cooperative framework for countries in South East Europe, with the goal of promoting mutual cooperation and European and Euro-Atlantic integration of South East Europe in order to inspire development in the region to the benefit of its people”.*

## Main tasks:

- Represent the region and assist the South-East European Cooperation Process
- Provide a regional perspective in donor assistance – notably the EU’s Instrument for Pre-accession Assistance program
- Support the involvement of civil society in regional activities

# Discussion

- How can we assure to
  - know all relevant activities and projects in the region?
  - be involved in relevant projects?
  - avoid duplications?
